Professional Summary

Results-driven IT professional with hands-on experience in software development, system configuration, and modern application technologies. Strong background in Linux environments, mobile and web development, and integrating emerging AI tools into practical solutions. Focused on building efficient, scalable, and user-centered systems.

Technical Skills

- **Programming:** JavaScript, TypeScript, VB.NET
 - **Frontend:** React, Expo
 - **Backend:** Node.js, REST APIs
 - **Mobile Development:** Android (Expo / React Native)
 - **Tools & Platforms:** Git, Docker, Firebase
 - **Operating Systems:** Linux (Arch Linux)
 - **Other:** API Integration, Debugging, System Optimization
-

Projects

AI-Integrated Mobile Application

- Built an Android application integrating lightweight AI capabilities
- Optimized performance for low-resource environments
- Implemented secure authentication and API communication

Web Application Platform

- Developed scalable web application using modern frameworks
- Implemented real-time data handling and responsive UI

- Managed authentication and backend integration

Linux-Based Development Environment Setup

- Configured Arch Linux for development workflows
 - Managed packages, dependencies, and system optimization
-

Experience

Software Developer (Self / Projects)

2023 – Present

- Designed and developed multiple applications
- Integrated APIs and third-party services
- Improved performance and usability of applications

IT Support & System Handling

2021 – 2023

- Troubleshoot system and software issues
 - Maintained system reliability and configurations
 - Assisted in technical problem-solving
-

Education

Bachelor's Degree in Information Technology (or related field)

Certifications

- Cloud & DevOps
-

Additional Information

- Strong problem-solving mindset
- Fast learner with interest in AI and modern technologies
- Comfortable working in Linux-based environments
